

Wooden Jewellery

Jewellery is the one thing women all over the world love to indulge in. It does not matter how much jewellery you have, you always long for new and latest designs of jewellery. Now days, many kinds of jewellery are available in the market. It ranges from Diamond jewellery, golden jewellery, Pearl jewellery, ceramic jewellery, wooden jewellery and more. Let us talk about wooden jewellery which is very much popular among all sections of society.

Wooden Jewelry is popular choice of those who are environment conscious and at the same time fashion conscious. By wearing wooden jewellery you are not only making a fashion statement but also caring for environment. Other advantage of wearing wooden jewellery is it loves your skin. It does not harm the skin in any way. They are light and made from durable natural material. When you wear them, they don't irritate you rather they are cool. And one of the most special reason to wear wooden jewellery is it is unique. You can make your own unique fashion statement. You look cool and trendy. This is just quite different from traditional jewellery. Designs are varied and unique.

Range of wooden jewellery is wide you can go for things like bracelets, hairclips, earrings, necklaces, hair barrettes, pendants, pen, wooden jewellery boxes and other items. Wooden jewellery is made attractive by combining other things gemstones, different colors and different connecting material.

Wooden jewellery looks beautiful because of its carved features and ethnic looks. If you are using wooden jewellery, you need to take its care to keep it beautiful for long. It is important to protect it from dust and dirt and to maintain integrity of each piece. Also with long usage, it starts looking dull. Let us see how can you clean and maintain wooden jewellery.

There are few things you need which include cloth, wood cleaner, tea tree oil.

First important caution, do not soak your wooden jewellery in water as jewellery may swell and fade. Always clean it with a dry or damp cloth before you wear it and after you remove it. Polishing is very to let it shine always. With time wood loses its shine and become dull. A simple wood cleaner is fine for polishing. The kind of wood cleaner you use also depends upon the wood you have in your jewellery. Tea tree oil is also a good wood cleaner. This time try some good wooden Jewellery and feel great.
